5. Dimension (mm)

6. Installation Introduction

Installation is easy:

Simply remove an existing fuse from the fuse box, insert that fuse in to the bottom slot of the fuse tap.

Insert a suitable fuse for the new accessory in to the top slot.

Crimp your new live wire to the blue butt terminal on the fuse tap.

Insert the fuse tap into the fuse box slot where the fuse originally was.

Please mind your car original fuse size to decide which size to buy

For Most German/EU Car Brands	For Most US/Japan Car Brands	For Some Japan/Korea Car Brands
